

Chris Chambers

Cloud Security Engineer | R.T.(R) ARRT | M.S. Cybersecurity
chambersjamar@gmail.com | chamb.dev | linkedin.com/in/chambsec | github.com/chambsec

SUMMARY

Cybersecurity professional with 10+ years in healthcare technology and regulated environments. Combines GRC principles and compliance frameworks (HIPAA, NIST 800-53, ISO 27001) with hands-on AWS cloud infrastructure, automation, and security engineering. Clinical background across radiology, MRI, CT, and emergency departments informs a practitioner-level understanding of the data and systems these controls protect.

EXPERIENCE

Radiologic Technologist, QA Lead, Epic Super User Jul 2023 - Present
Memorial Sloan Kettering Cancer Center · New York, NY

- Serve as Epic Super User governing clinical data access controls and driving system adoption across departments
- Document and enforce compliance procedures aligned with DOH, HIPAA, and ACR regulatory standards
- Maintain audit trails and logs for quality control supporting regulatory audits and compliance reporting
- Coordinate departmental policy updates to ensure adherence to risk and safety requirements
- Oversee governance of imaging software ensuring secure configurations and access controls

Radiologic Technologist Nov 2016 - May 2022
Englewood Hospital and Medical Center · Englewood, NJ

- Supported compliance initiatives in intraoperative environments through policy adherence and technical documentation
- Maintained accurate patient data across imaging systems PACS and RIS in a regulated clinical environment
- Collaborated with IT and clinical teams on system downtime procedures and workflow continuity

PROJECTS

Compliance Engineering Platform chamb.dev/projects/compliance-platform.html

Five production systems with live interactive demos. Policy-as-code gates, automated audit evidence with Cosign signing and S3 Object Lock, HIPAA gap remediation on a live patient intake API, continuous security baseline monitoring, and zero trust credential elimination.

OPA/Rego Cosign OSCAL GuardDuty OIDC Terraform NIST 800-53 HIPAA

PACS / HL7 Interface Lab chamb.dev/projects/imaging-systems.html

Real PACS and HL7 interface engine. Orthanc DICOM server, Mirth Connect interface engine, six interactive demos. Real undocumented Mirth 4.x failure diagnosed and documented in BREAKFIX.md.

PACS HL7 DICOM Mirth Connect Orthanc Docker

GRC Engineering Capstone github.com/chambsec/grc-engineering-capstone

End-to-end compliance-as-code across AWS and GCP. Closed 7 of 8 HIPAA Security Rule control gaps with cryptographically signed OSCAL evidence bundles.

Terraform OPA OSCAL AWS GCP HIPAA

EDUCATION

M.S. Cybersecurity 2020

Thomas Edison State University
Cryptography · Forensics · Risk Management · Network Defense · Governance

B.S. Diagnostic Imaging Sciences 2016

Rutgers University
PACS/RIS/HIM · HL7 · DICOM · Project Management

A.A.S. Radiologic Sciences 2014

Bergen Community College

CERTIFICATIONS AND LICENSES

R.T.(R) ARRT · Active Registered Radiologic Technologist

AWS Cloud Practitioner · In Progress Amazon Web Services

AWS Security Specialty · Planned Amazon Web Services

TECHNICAL SKILLS

Cloud:

AWS Lambda · DynamoDB · CloudFront · EventBridge · API Gateway · Cognito · S3 · SES · Bedrock · GuardDuty · CloudTrail · Cost Explorer

Security and Compliance:

HIPAA · NIST 800-53 · ISO 27001 · Policy-as-code · Zero trust · Audit evidence automation

Languages and Tools:

Python · React · JavaScript · Git · Docker

laC and Automation:

Terraform · OPA/Rego · OSCAL · GitHub Actions · Cosign · OIDC · Workload Identity Federation

Healthcare IT:

PACS · RIS · Epic · HL7 · DICOM · HIPAA compliance · Clinical workflow governance
